SERVICE LIST

Trade: Framework contract - kitchens

Item No.	Quantity	Unit	Unit price
1			Kitchens PRELIMINARY REMARKS FOR FRAMEWORK AGREEMENTS GENERAL SUBJECT OF THE CONTRACT The contracting parties agree to carry out all contractual services in accordance with the conditions described here and at the net prices specified in the catalogue plus the applicable VAT. NOTE: The definition of the terms marked with *.....* is provided under "Special Contractual Data" - Special Agreements on the Preliminary Remarks - SCOPE The framework agreement applies to all *contractual services* arising in the client's property management. ADDITIONAL CONTRACTUAL TERMS AND CONDITIONS The client's "Additional Contractual Terms and Conditions for VOL/B as amended on October 6, 2023" shall apply upon commissioning. In the event of an order, this framework agreement shall be an integral part of the Order letter (Additional Contractual Conditions § 1a). CONTRACT TERM The framework agreement enters into force upon *contract commencement* and is concluded until the end of the agreed term.* It is renewed until the end of the next quarter unless terminated in writing by one of the contracting parties with three months' notice before the end of the contract term. PRICE ADJUSTMENT If there are wage or salary adjustments within the contract period. Material prices change, the price level can be re-established by negotiation between the contracting parties on the *price adjustment date* of each year, but no earlier than the *first price adjustment date*. The request for price changes must be communicated to the contracting party in writing at least three months before the *price adjustment date*. If an agreement on the new price cannot be reached, Either party may terminate the contract with three months' notice at the end of each quarter. Agreed price changes do not apply to orders already placed before the price adjustment date*. DESCRIPTION OF SERVICES All additional services required to fulfill a primary service (taking into account the proposed system and all relevant regulations) but not specifically listed in the service specifications were taken into account when determining the price and must be performed (functional construction). If, in the case of an order, several suitable options exist for the services to be provided, the contractor must implement the most cost-effective solution for the client. In cases of doubt, consultation with the client must be sought prior to execution of the work. Failure to do so will result in an appropriate reduction in the invoice. ADDITIONAL SERVICES

SERVICE LIST

Trade: Framework contract - kitchens

Item No.	Quantity Unit	Unit price
----------	---------------	------------

Additional services will only be accepted by the client if the services ordered are not listed in the catalogue and the type and scope have been agreed with the client before the services are provided (for remuneration, see section on invoicing).

PLACING OF ORDER Orders are placed in writing; verbal orders are not permitted.

EXECUTION AND EXECUTION DEADLINES The commissioned services must be provided within a specified * standard execution time*. In particularly urgent cases, the client may specify shorter execution deadlines. Before performing the work, the contractor must make timely appointments with the tenant in the case of rented premises, and with the client's responsible representative in all other cases. Should the contractor discover further damage to the building (including damage to other trades) during the performance of the work, this must be reported to the client. Upon completion of the work, as well as in the event of a pause in the work, the contractor must remove any contamination or damage caused by the contractor.

CUSTOMER SERVICE The Contractor has the obligation to treat tenants politely and helpfully in order to contribute to good tenant service.

PROOF OF PERFORMANCE For each order, the contractor must provide an auditable To provide evidence of performance:

BILLING Billing is done in writing (see also ZVB §14).

DISCLOSURE TO THIRD PARTIES The Contractor undertakes not to disclose this contract text to third parties to pass on.

NO ORDER GUARANTEE Upon conclusion of the framework agreement, no order guarantee is granted to the contractor.

SPECIAL AGREEMENTS RELATING TO THE PRELIMINARY REMARKS

CONTRACTUAL SERVICES

Dismantling and professional disposal of any old kitchen furniture, stoves, refrigerators, etc.

Delivery, assembly and installation of fitted kitchens including electrical and plumbing connections.

START OF CONTRACT

February 1, 2024

END OF THE AGREED TERM

January 31, 2026

PRICE ADJUSTMENT DATE

on February 1st of each year

FIRST PRICE ADJUSTMENT DATE

February 1, 2025

LEAD TIME

The contracting parties agree on a period of maximum 18 working days between the placement of the individual order and completion.

For installation within a maximum of 12 working days as specified by the client, there is a separate allowance as an extra (see Title 1.1.30: Installation acceleration allowance).

The contracting parties agree that the contractor will accept each individual order offered. If an individual order is rejected, the contractor must provide evidence that the agreed minimum capacity has already been requested by the client. This must be communicated in writing (email, etc.) to the contracting department and Central Purchasing.

The measurements and quantities required for the performance verification must be specified with a drawing sketch, item number and short description.

DISCOUNTS

For orders with a net invoice amount of more than EUR 5,000, the following discounts will be deducted.

Discount for estates over €5,000 to €10,000	: 3%
Discount for estates over €10,000 to €20,000	: 4%
Discount for estates over €20,000 to €50,000	: 5%
Discount for estates over €50,000	: 7%

ADDITIONAL PRELIMINARY REMARKS

Preliminary remarks

The SAGA Group owns a portfolio of approximately 138,000 apartments (divided into approximately 6,000 buildings) and approximately 1,500 commercial units. This makes it Hamburg's largest housing company and one of the largest in Germany.

Background of the request

Preparation of a framework agreement for the dismantling of any existing old kitchen furniture and appliances, as well as the delivery and installation of a new fitted kitchen including plumbing and electrical connections. The services are primarily provided in occupied properties (e.g. change of tenant), but also in the context of smaller or larger modernization work.

The annual demand is on average around 350 fitted kitchens.

Please note: Electrical work (operational connection, e.g. when connecting a cooker) should only be carried out by qualified personnel or by EuP with specified tasks.

A notice:

Annex 1 is an integral part of the new framework agreement from 1 March 2024.

----------	---------------	------------

ZTV - Kitchens

Preliminary remarks Technical

In the case of individual orders, the kitchen planning documents in scale (1:20) must be submitted to the client and signed by the client before the new kitchen furniture is manufactured and installed.

Billing is based on the number of fitted kitchens installed. The costs for taking measurements and preparing the necessary documentation must also be taken into account.
All measurements must be taken on site!

In principle, it can be assumed that any existing, worn-out fitted kitchen will be dismantled and disposed of on the same day that the new fitted kitchen is delivered and installed.

It is important to ensure that the new fitted kitchen is ready for use on the day of installation. This means that the built-in stove and sink must be connected by an electrician and a plumber, respectively, on the same day. These services are included in the price.

The installation date is therefore binding as the completion date for the contractor and any subcontractors.

During the construction period, care must be taken to ensure that unavoidable disturbances, particularly noise and pollution, are kept to the minimum necessary, with due consideration for the residents of this and the adjacent properties.

All services must be calculated including all required materials, transport costs, labor and labor costs, as well as the removal and disposal of all contamination caused by the contractor and the removal and disposal of the contractor's own waste and debris. All fees for official permits, including those for the use of public areas (including Parking permits) are to be borne by the contractor.
There is no separate fee for site setup, including the associated ancillary costs. These costs must be included in the unit prices.
Storage, traffic and work areas that have been used must be returned to their original condition immediately after use.
Packaging material, leftover materials and other waste must be removed continuously.

Fronts

Fronts made of finely structured melamine resin coated chipboard, D = 19 mm, emission class E1, sealed on all sides with 2 mm slightly rounded solid plastic edge, edges bonded with PU adhesive polyurethane.
The edge color (standard) can be chosen differently from the front color. All front panels (doors, drawers, etc.) must be equipped with damping buffers.
Quick-assembly hinges made of nickel-plated metal, adjustable in 3 dimensions. Built-in springs and impact dampers. All-metal cup hinges, self-closing with steel springs, with integrated damping. Fronts and handles: Colors and designs to be agreed upon with the client according to the sample table.

Corpus

Body made of 16 mm thick melamine-coated chipboard, emission class E1, with multiple dowelling and glued sides and bottoms. The shelves are secured against falling out and are height-adjustable. Back panels made of 3.3 mm hardboard, grooved into the sides of the body, secured at the top and bottom, and coated in white.
Shelves: 16mm thick, white melamine resin coated on both sides, edged on all sides, individual height adjustment via hole system.
Sink base units are protected against moisture by an additional metal base, which is 3-

SERVICE LIST

Trade: Framework contract - kitchens

Item No.	Quantity	Unit	Unit price
----------	----------	------	------------

to protect it by raising it on the side and bending it at the front.

Drawers

Drawers with robust, maintenance-free 3-sided steel frames, roller bearings, with integrated self-closing mechanism and integrated damping, load capacity at least 25 kg, base made of melamine resin-coated chipboard at least 16 mm.

Wall cabinets

Wall cabinets with a particularly sturdy and three-way adjustable metal suspension system (load capacity 75 kg), with height-adjustable shelves. For plasterboard walls or similar, support rails and appropriate special dowels are required.

Hinges as nickel-plated all-metal hinges with self-closing mechanism, opening angle 110°, three-dimensional hinge band adjustment for exact alignment of the doors, with integrated damping.

base

Base with adjustable plastic base feet, suitable for the base height, usually 15 cm high, base panels: continuous, white, with base sealing profile, cutouts in panel for e.g. Dishwasher position, concealed with plastic profiles. Base panel with sealing lip to the floor. The cost of the surrounding base, including the side pieces, and the cost of the adjustable base feet to match the base height are included in the price of the base cabinets.

worktop

– Worktops made of multi-layer quality chipboard E1, rounded at the top and bottom, at least 38 mm thick, coated with a high-density laminate (HPL) at least 0.8 mm thick, underside and rear edge covered with a moisture-repellent counter-lamination. Slightly rounded solid plastic edges on all sides, the front edge is seamless and postformed. The worktops must be installed continuously and without any slits. For continuous worktops, a ventilation grille must be installed above the refrigerator space. All cut edges must be fully sealed to protect against moisture ingress. Visible cut edges must be matched to the adjacent material. Corner joints must be secured with clamping screws, tongue and groove joints, and waterproof glue.

Worktop: Colors and design after consultation with the client according to sample table

Wall connection

Two-part wall connection profiles made of PVC-free plastic with a metal insert or aluminum, with aluminum mounting rails and sealing lips for decorative niche panels. Screwed and sealed to the wall. The costs for the wall connection profile, as well as for corners, end caps, etc., are included in the price of the worktop.

Colors and design according to sample table

Sink cabinets

Stainless steel sink as a built-in sink with draining board inlaid in silicone and screwed on the underside. As a rule, a right-handed sink with draining board on the left is installed, sink base cabinet with a half-height back wall for installation mounting.

fittings

SERVICE LIST

Additional contractual terms and conditions for VOL/B

As of: October 6, 2023

Material scope

These Additional Terms and Conditions apply to contracts for deliveries and services within the scope of VOL/B, which SAGA concludes as the client.

§ 1 Type and scope of services, remuneration

1. The order is based on the following order:

- a) the engagement letter with all attachments,
- b) the service description with the associated documents,
- c) any special contractual conditions,
- d) these Additional Terms and Conditions,
- e) the General Terms and Conditions for the execution of services (VOL/B), in the version valid at the time of submission of the offer,
- f) the relevant provisions of the Civil Code.

In the event of contradictions, the contract components shall apply sequentially in the order specified.

The Contractor's terms and conditions of business, sale and delivery shall under no circumstances become part of the contract, even if reference is made to them in the Contractor's offer or other documents.

2. The Contractor declares that he has familiarised himself with the details of the tender and its basis and that he has been able to obtain information on the scope of the contractual services and the method of invoicing from the documents received.

The Contractor warrants that its operations are suitable for the scope and nature of the contract and that all operational requirements for timely execution are met. The Contractor further warrants that it has adequate insurance against all risks and undertakes to provide proof of this insurance coverage upon request from the Client.

3. The contractor undertakes to ensure that, when performing the contractual services, the illegal employment of workers, undeclared work, or violations of the Posted Workers Act are avoided, that the collective agreements applicable to the parties to the collective bargaining agreement are observed, and that the employees employed by the contractor are paid at least the legally prescribed minimum wage per hour pursuant to Section 1 of the Minimum Wage Act at the applicable rate. The contractor is also responsible for the conduct of third parties who have been commissioned by the contractor as subcontractors or who have been entrusted by the contractor with the performance of contractually agreed services – regardless of the degree of subordination.

4. The Contractor declares that he has fulfilled his legal obligation to pay all taxes, social security contributions (health, accident, pension, long-term care and unemployment insurance) and contributions to the professional association.

5. The Contractor and its subcontractors must keep up-to-date, complete and verifiable documents (time sheets, payroll, employee lists) on the employees deployed at all times and provide them to the Client upon request.

to be submitted.

6. In the event of failure to provide such evidence, the Client shall be entitled to withhold any payments due to the Contractor until the Contractor has fulfilled its obligation.
7. The Contractor indemnifies the Client from any liability to employees, social security funds, etc. under Section 1a of the Posted Workers Act and Section 13 of the Minimum Wage Act. This indemnification obligation also includes any liability of the Client for payment obligations of a subcontractor or a temporary employment agency commissioned by the Contractor or a subcontractor.
8. If the Contractor culpably breaches its obligations under Section 1, Paragraph 3 or if it culpably fails to comply with its obligation under Section 1, Paragraph 5 to submit documents within a deadline set by the Client, the Client shall be entitled to terminate the contract without notice and to have the part of the service not yet provided performed by a third party at the Contractor's expense.

Further compensation remains expressly reserved.

9. The Contractor undertakes to comply with all trade restrictions (sanctions) imposed at federal and EU level against other states, in particular import and export bans (e.g. sanctions packages against Russia due to the invasion of Ukraine) and furthermore to oblige its contractual partners (e.g. subcontractors, suppliers, etc.) to also implement applicable sanctions law.

10. The agreed prices are fixed prices.

The contract price includes the entire contractual performance, including all ancillary costs, in particular, allowances and surcharges for salaries and wages. The price also includes the costs for any interim storage, packaging, loading, transport to the delivery point, unloading, transport to the place of use specified in the contract, assembly, and official and technical acceptance.

11. If an order is placed based on a sample, the Contractor shall transfer ownership of the sample without any claim to special compensation. The sample shall not be credited towards the services.
12. The Contractor confirms that he has received the Code of Conduct of the SAGA Group/has obtained it from the internet address provided by the SAGA Group

<http://www.bme.de/services/zertifizierungen/bme-code-of-conduct>

has downloaded and will provide its contractual services in accordance with these specifications.

§ 2 Change of service

1. If new prices are to be agreed pursuant to Section 2, Paragraph 3 of the VOL/B, the Contractor shall, upon request, provide the price calculation for the new prices and, where necessary, for the entire service, for inspection and provide the necessary information.
This also applies if the contractor is entitled to remuneration in accordance with Section 2 No. 4 VOL/B.
2. The terms and conditions of the main contract shall apply to additional orders.
3. The contractor has additional claims according to § 2 No. 3 VOL/B before the start of the
In any case, execution must be notified in writing.
4. If prices per unit have been agreed, the Contractor shall, at the request of the

The client is obligated to provide additional services of up to 10 percent of the quantities specified in the order without changing the contractual unit prices, or to agree to a reduction of up to 10 percent. This does not apply if staggered prices or discounts based on quantities have been agreed.

§ 3 Execution documents

- 1. The execution may only be based on documents that have been expressly marked as intended for execution by the client.**
- 2. Any discrepancies in the documents must be reported by the Contractor in good time before the start of the execution in writing.**

§ 4 Execution of the service

- 1. The client may at any time obtain information about the contractual execution of the services.**
- 2. The Contractor may only transfer partial services to third parties with the prior written consent of the Client. The transfer of the entire services to third parties is not permitted.**
- 3. The Contractor shall take all necessary safety precautions in connection with its services. The Contractor may use the Client's facilities and equipment only at its own risk. If special official permits, approvals, or acceptances are required for the Contractor's services, these must be obtained or arranged by the Contractor in a timely manner.**
- 4. If the Contractor carries out transports within the scope of the contractual relationship that meet the requirements of road haulage within the meaning of Section 1 of the German Road Haulage Act (GüKG), the Contractor guarantees that he has the necessary permits and approvals, in particular pursuant to Sections 3, 6 and 7b of the GüKG.**
- 5. The Contractor shall permanently bear any fees for industrial property rights and shall indemnify the Client indefinitely against all claims arising from the infringement of such rights and related costs. The Contractor shall grant the Client the right of joint use free of charge for all items delivered to it protected by patents or utility models, including all components and accessories, to the extent necessary for maintenance and the procurement of spare parts.**
- 6. The Contractor shall – without claiming any special compensation – submit triplicate technical documentation no later than upon delivery of the contractual items. The employees designated by the Client must be thoroughly instructed. The technical documentation also includes the material bases. This includes operating, maintenance, and repair instructions, as well as spare parts lists and other visual and written documentation that are normally required for the use, maintenance, and repair of the contractual items and for the procurement of spare parts.**

§ 5 Hindering and interruption of performance

- 1. If the Contractor is hindered in the performance of his services, he must notify the Client immediately in writing, even if the Client should have been aware of the hindering circumstances.**
- 2. An extension of the execution deadlines due to hindrances or interruptions to execution, including due to weather conditions, shall not constitute grounds for claims for special compensation. Claims for damages remain unaffected.**

3. Any delays incurred by the Contractor will not be waived by the extension of deadlines and dates. The individual deadlines and dates specified in the contract documents or subsequently agreed upon shall always be considered contractual deadlines and dates.

§ 6 Type of delivery and shipping

1. The delivery must be made free of charge to the contractually agreed delivery point of the client take place.
2. The items to be delivered must be packaged in accordance with standard commercial practice. At the Client's request, the Contractor shall take back the packaging material after delivery.
3. The Contractor shall set up or assemble the contractual items ready for use at the location designated by the Client.
4. Deliveries must arrive during normal working hours in sufficient time to allow them to be properly unloaded and stored. The Contractor is obligated to notify the Client in a timely manner prior to the arrival of deliveries.

§ 7 Delay and non-performance of the contractor

1. If the client withdraws from the contract, it is entitled, but not obligated, to return the services received. If it retains them, it must compensate for the value the services have for the client.
2. The Contractor shall compensate the Client for any loss of profit even in cases of delay or non-performance caused by slight negligence.

§ 8 Termination of the contract by the client

1. In the event of default by the Contractor after the expiry of a reasonable grace period, the Client shall be entitled to terminate the contract with immediate effect.

Otherwise, Section 8 VOL/B applies unless these ZVB contain more specific provisions.

2. The Client may demand compensation from the Contractor for all damages caused to it arises directly or indirectly from the termination of the contract.

§ 9 Termination of the contract by the contractor

Section 9 VOL/B applies.

§ 10 Duties of care

The contractor bears all transport risks.

§ 11 Contractual penalty

1. If the agreed delivery or execution date is exceeded for reasons for which the Contractor is responsible, a grace period of 14 days may be charged for each working day commenced.

In the event of default, a contractual penalty of 0.3%, up to a maximum of 10% of the final invoice amount, may be demanded. The contractual penalty will be offset against any claims for damages by the client arising from the delay; however, the right to assert further, higher damages remains reserved.

2. The claim for contractual penalty can be asserted until the final payment.
A reservation upon acceptance is not required.
3. If the delivery or execution date is agreed upon again, the agreed contractual penalty shall also apply to the new date. A contractual penalty already incurred shall not be waived by agreeing on a new date; however, the maximum limit pursuant to Section 1 shall apply to the total contractual penalty to be paid.
4. For recurring services, the contractual penalty will only be calculated on the portion of the services not performed on time. In these cases, notwithstanding clause 1, a contractual penalty of 0.5% of the value of the respective partial service will be calculated for each commenced working day of delay. Repeated assertion is permitted. The total contractual penalty thus incurred may not exceed 10% of the invoiced amount for the entire service.
5. In the event of a culpable violation of Section 1, Paragraph 3 and Section 4, Paragraph 3, the Contractor shall pay a contractual penalty of 1% of the contract amount, or up to 5% of the contract amount in the event of multiple violations. The Contractor shall also be obligated to pay the aforementioned contractual penalties if the violation is attributable to a subcontractor employed by the Contractor or a subcontractor employed by the Contractor.
6. If the contractor has entered into an agreement during the contract award process that constitutes an impermissible restriction of competition, the contractor shall pay 5% of the contract amount to the client. Claims for higher damages remain unaffected.

§ 12 Quality control

The performance of quality inspections must be agreed upon in each individual contract.

§ 13 Transfer of risk and acceptance

1. The Contractor shall bear the risk for his performance until acceptance. If such not provided for by law or contractually agreed, the risk shall pass to the client upon handover of the service.

Section 13 No. 1 Paragraph 2 VOL/B does not apply.

2. If acceptance of the services is required by law or contract, this shall only take place after complete completion at a date to be set by the Client.

Acceptance can only be requested for the contractor's entire performance.

The contractor must apply for the officially prescribed and required acceptances and inform the client thereof.

The acceptance by the Client is not replaced by an official acceptance or prior use or commissioning of the services provided by the Client or third parties.

3. In the case of delivery services, the Client must examine the service object within the framework of legal requirements (§§ 377, 378 HGB) and report any defects or deviations from the order to the Contractor within two weeks after

to indicate delivery.

If this period is not sufficient in an individual case for special reasons, the Client may request a reasonable extension.

If a defect or a deviation in performance only becomes apparent later, the client may assert its resulting rights at any time within the warranty period. Immediate notification of defects pursuant to Section 377 Paragraph 3 of the German Commercial Code (HGB) is not required.

§ 14 Claims for defects and limitation periods

1. The limitation period for claims for defects, which begins with the transfer of risk, is normally two years; in the case of services relating to a building, five years.
2. If the Client submits a written notification of defects within the specified time limit, the limitation period shall be suspended and shall begin to run anew for the defective part of the service after acceptance of the defect rectification service.
3. In the event of defective performance, the Contractor shall also be liable for consequential damages caused intentionally or negligently.

§ 15 Invoices

1. Invoicing is based on the payment plan.
2. Partial invoices must be submitted in duplicate. They must contain:
 - a) the total contract amount including any subsequent orders, b) the enumeration and offsetting of all partial payments,
 - c) the requested rate,
 - d) the VAT charged.
3. The final invoice must be submitted in triplicate. It must contain:
 - a) the final settlement amount,
 - b) the listing and expenditure of all partial payments including any Payments to suppliers, etc.,
 - c) the guarantee amount,
 - d) the final payment,
 - e) the VAT charged.

The final invoice must include:

Drawings, measurements and quantity calculations of the items that were assigned and executed for verification purposes.

§ 16 Services based on hourly rates

Services based on hourly rates will only be paid if a written order from the client is received prior to the start of execution. These services must be invoiced immediately upon completion.

§ 17 Payment, assignment, offsetting

1. The acceptance and payment of final invoices does not preclude claims for reimbursement due to incorrectly invoiced services and claims. A loss of enrichment (Section 818 (3) of the German Civil Code) cannot be asserted.

- 2. Assignments without the prior written consent of the Client are invalid.**
- 3. The Contractor may only assert claims against the Client with undisputed or legally established claims.**

§ 18 Security deposit

- 1. As a security deposit pursuant to Section 18 of the German Contractual Agreement on Contracts for the Dispatch of Workers (VOL/B), and in the event of a claim by the client under Section 13 of the Minimum Wage Act and/or Section 14 of the Posted Workers Act, a cash deposit of 5% of the final invoice amount will be retained for the duration of the warranty period for final invoice amounts (including VAT) exceeding €25,000.00. This deposit does not bear interest. A transfer to a blocked account will not be made.**
- 2. The client is entitled to retain 10% of each advance payment until the agreed security deposit has been reached.**
- 3. The Contractor may, provided that he has not suspended his payments and no application for the opening of insolvency proceedings has been filed, redeem the security deposit after acceptance and final invoice by depositing money or by providing an unlimited, directly enforceable guarantee from a credit institution or credit insurer authorized in Germany in accordance with the guarantee declaration issued by the Client.**
- 4. The security will be returned after the expiration of the contractually agreed limitation period for claims for defects. If the client has asserted claims at this time but has not yet been fulfilled, the client may retain a corresponding portion of the security.**

§ 19 Disputes

- 1. Any amendment or addition to the contract must be made in writing.**
- 2. If the Contractor is a registered merchant, the place of jurisdiction shall be the registered office of the Client.**
